

Armoured Cable Gland

Armoured cable glands are used for cable entry points that need stronger clamping, sealing and mechanical support for armoured cable installations.

| Product Information |                                                                    |
|---------------------|--------------------------------------------------------------------|
| Product Name        | Armoured cable gland                                               |
| Main material       | Nickel-plated brass body with sealing and clamping parts           |
| Thread options      | Metric, PG and NPT options by request                              |
| Application         | Armoured cable entry for cabinets, machinery and outdoor equipment |
| RFQ note            | Confirm cable structure, armour diameter, cable OD and thread size |

Technical Parameters

| Thread Size | Cable Range | Thread Length | Spanner Size | Outer Diameter |
|-------------|-------------|---------------|--------------|----------------|
| M12 x 1.5   | 3-6.5 mm    | 8 mm          | 14 mm        | 18 mm          |
| M16 x 1.5   | 4-8 mm      | 8 mm          | 18 mm        | 22 mm          |
| M20 x 1.5   | 6-12 mm     | 9 mm          | 22 mm        | 24 mm          |
| M25 x 1.5   | 13-18 mm    | 10 mm         | 28 mm        | 33 mm          |
| M32 x 1.5   | 18-25 mm    | 11 mm         | 36 mm        | 42 mm          |
| M40 x 1.5   | 22-32 mm    | 12 mm         | 45 mm        | 52 mm          |
| M50 x 1.5   | 32-38 mm    | 13 mm         | 55 mm        | 60 mm          |
| M63 x 1.5   | 37-44 mm    | 14 mm         | 68 mm        | 75 mm          |
