

MC4 Photovoltaic Connector

The MC4 Photovoltaic Connector provides reliable plug-in connections for solar PV cabling exposed to sun, rain and temperature swings. Available sizes, materials and packing options are listed in the parameter table. Send your application details and the sales team will verify the right specification before you order.

| Product Information |                                                                                                |
|---------------------|------------------------------------------------------------------------------------------------|
| Product Name        | MC4 Photovoltaic Connector                                                                     |
| Product family      | Solar Connector                                                                                |
| Application         | Waterproof electrical connection, cable entry or enclosure installation                        |
| RFQ note            | Confirm model, thread or connector size, cable outside diameter, material request and quantity |

Technical Parameters

| Thread Size | Material             | Color / Finish               | Common Use            |
|-------------|----------------------|------------------------------|-----------------------|
| M12 x 1.5   | PA66 / brass options | Black, gray or nickel plated | Cable gland matching  |
| M16 x 1.5   | PA66 / brass options | Black, gray or nickel plated | Spare hole closing    |
| M20 x 1.5   | PA66 / brass options | Black, gray or nickel plated | Thread conversion     |
| M25 x 1.5   | PA66 / brass options | Black, gray or nickel plated | Enclosure accessories |
| M32 x 1.5   | PA66 / brass options | Black, gray or nickel plated | Project spare parts   |
